Weight	550 lb (249 kg)
Brush Material Capacity	3 inch (8 cm)
Cut Height	3–5 inches (8–13 cm)

All specifications subject to change without notice or obligation

Take down the toughest overgrowth with the Ventrac MZ480 Brush Cutter, designed for serious brush mowing. Using centrifugal force, its heavy-duty spindle drives two 0.5" thick break-away blades, delivering unmatched cutting performance. A hinged front gate allows dense brush—up to 3" in diameter—to feed directly into the blades, making it the most aggressive brush-cutting deck in the Ventrac lineup. At just 48" wide, it's the narrowest mower offered, perfect for tight-access areas without sacrificing power. Ideal for estate management, commercial use, land reclamation, municipalities, and DOT applications, the MZ480 is built to handle the toughest jobs with ease.
